

# 800W Equine Light Therapy Lamp

## DETAILS

Top-Brand LED Chip

Adjustment Range 140°

RS-485  
Communication

## DETAILS

| Top-Parameter           | Specification                                         |
|-------------------------|-------------------------------------------------------|
| Dimensions (L x Wx H)   | 1474x1220 x300 mm                                     |
| AC Input Power          | 800 W                                                 |
| AC Input Voltage & Freq | 120-277 VAC, 50/60 Hz                                 |
| Beam Angle              | 120°                                                  |
| Adjustment Range        | 140°                                                  |
| Control Interface       | RS485 Communication                                   |
| Spectral Channels       | Ch1:660 nm; Ch2:850nm; Ch3: 450 nm; Ch4: 3000 K White |
| WarrantyBrand LED Chip  | 5-Year Standard Warranty                              |

Energy Saving  
Design

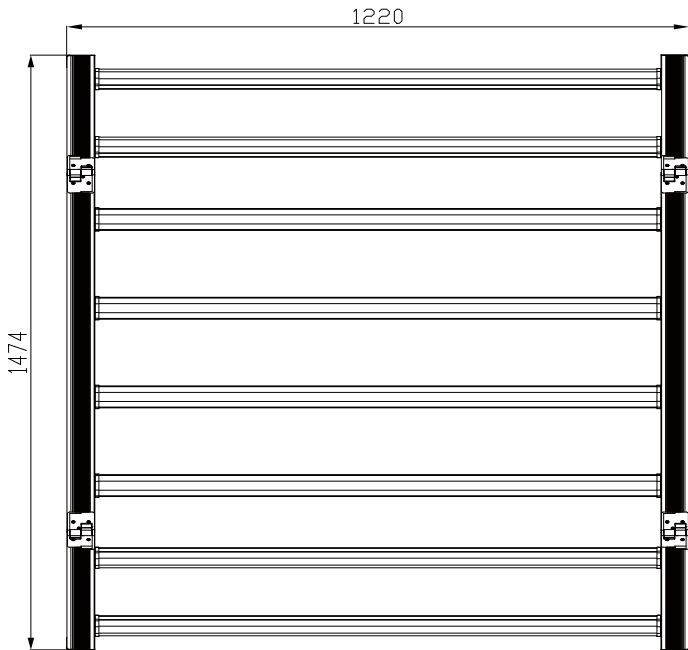

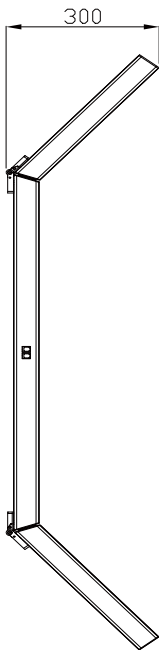

Smart Over  
Temperature Protection

Silent  
Operation

## SIZE

# 7 Equine Therapy Programs

1. Growth Acceleration
2. Muscle Recovery
3. Improvement coat and skin
4. Optimize digestion
5. Optimize reproduction
6. Outdoor light mode
7. Normal Lighting
